Dear Yvonne

Expansion of The Orion Academy: Satellite Provision in Banbury

I am writing to express my support for the above plans at Longford Park School.

While we are very fortunate to have some very good special needs schools in our area, including at Frank Wise School and Bardwell, increasing provision seems appropriate given current demand. I know from my constituency casework that a number of parents would welcome an expansion of special needs providers in our area.

I would be very happy to engage with the Council further as it develops its plans.

Yours

Victoria
